

## POLYIMIDE 1-MIL TAPE MOST POPULAR

## Tape No: 3-745AMB-S Polyimide 1-mil Tape – Most Popular

## Features:

- Our most popular polyimide product
- Polyimide film and silicone adhesive designed for high temperature and masking applications, including the protection of printed circuit board gold finger contacts during wave soldering
- Used in electrical insulation applications meeting class H requirements
- Thin and conformable enabling masking of uneven surfaces
- Wide operating temperature range up to 500°F
- Excellent electrical insulation
- Removes cleanly without adhesive residue after exposure to heat/chemical

| Technical Data:                      |               |
|--------------------------------------|---------------|
| Film Thickness: (mils)               | 1             |
| Total Tape Thickness: (mils)         | 2.5           |
| Adhesion to Steel: (Oz/inch)         | 25            |
| Tensile Strength: (Lbs/inch)         | 30            |
| Dielectric Strength: (Volts)         | 6,500         |
| Color:                               | Amber         |
| Adhesion Type:                       | Silicone      |
| Elongation: (%)                      | >55           |
| Insulation Resistance: (mega ohms)   | 1,000,000     |
| Electrolytic Corrosion Factor:       | 1             |
| Insulation Class: (centigrade)       | 180°          |
| Temperature Resistance:              | 260°C (500°F) |
| Resistance to acids, oils, solvents: | EXCELLENT     |

| Size:              |  |
|--------------------|--|
| Tape Length (Yds): | 36   |
| Tape Width (in):   | .25", .5", .75", 1", 1.5", 2", cut to size |

## **Applications:**

- 1. Mask for protection of gold fingers of printed circuit boards during wave solder or solder dip process.
- 2. Release surface in fabrication of parts cured at elevated temperatures.
- 3. Widely used for electrical insulation on transformer, motor, coils, PCB making, etc.
